To whom this may concern:

I am writing RE: of Emily Grace G[redacted] docket no. 34752 The gaurdian Ad litmen for Emily recomended steps to be taken. I do go to my supervised visits at kids first program and I did take parenting classes, here is a copy of the paper that shows I finished the classes, in vice versa her mother Sylvia G has never went to the kid first program or even taken parenting classes, she gets to see Emily when ever she wants to. They say we have been married and divorced and separated more times than can be counted, I have only been married and divorced once and that was with Sylvia. Sylvia has been married twice and divorced twice. It's not fair i'm being called unfit when not once have I seen my daughter unsupervised, so I would like to know how i'm unfit and how I have neglacted her, when I have been trying to get custody of her since she was born. They say she needs to be in a safe and stable household with no violence, I live with my parents

and girlfriend, we live in a peaceful house and peaceful naborhood. The relationship i'm in now has been violent free since day one. My parents get along great. I'm worried about my daughters safty. I don't want her to go through the things her mother went through. They say were not suppose to be in the same nosehold as Emily, Sylvia was arrested in December at her mothers house where Emily lives. Right after her arrest she filed a phoney domestic violent order against me. In my eyes it's not right what they are getting away with. Unlike me they have a lawyer, I don't have the mone to afford one I get SSI. Katherine Burchmore spoke to me and said the courts should have appointed me one, but they never have. If theres any way possible you can help me in getting one I would appriciate it. All i'm ashing from you is the chance to have my daughter and to be in her life full time not part. I want to

be able to prove to everyone that i'm fit to be a father and be in her life. It hurts me everytime I leave the kids first program and she's crying wanting to go with me, my parents see her once a month and she crys everytime they leave. It's not fair what they are putting Emily and us through. Any help I can get is truly appriciated. Thanks for your time.

Sincerly,
CARI B[redacted]

Enclosed is proof of my aligations.
