### Drug Courts plan three graduations in April

For immediate release

CHARLESTON, W. Va. – Three West Virginia Adult Drug Courts plan graduation ceremonies in April.

- The South Branch Valley Adult Drug Court will hold a graduation ceremony for thirteen people at 11 a.m. today, April 8, at the Hampshire County Judicial Center in Romney.
- The Mid-Ohio Valley Adult Drug Court will hold a graduation ceremony for four participants at 4:15 p.m. on Friday, April 15, at the Judge Black Annex in Parkersburg.
- The Preston County Adult Drug Court will hold a graduation for three participants at 3 p.m. on Thursday, April 21, in the third floor courtroom in the Preston County Courthouse in Kingwood.

The 2014 Justice Reinvestment Act required adult drug courts to serve all of West Virginia's counties by July 1, 2016. There now are 27 adult drug court programs serving 45 counties. Three additional drug courts are planned to cover the Third (Doddridge, Pleasants, Ritchie Counties), Fourteenth (Braxton, Clay, Gilmer, and Webster Counties), and Thirtieth (Mingo County) Judicial Circuits.

There are 15 operational juvenile drug courts serving 20 counties: Berkeley, Boone, Brooke, Hancock, Harrison, Jefferson, Kanawha, Lincoln, Logan, McDowell, Mercer, Monongalia, Ohio, Pleasants, Putnam, Raleigh, Randolph, Wayne, Wirt, and Wood.

Adult and juvenile drug courts are open only to non-violent offenders whose underlying crimes are linked to substance abuse. Referrals are made by judicial officers, law enforcement, probation officers, prosecutors, and defense attorneys. Juveniles also can be referred by school personnel, parents, and child protective services/youth workers.

Both adult and juvenile drug court programs have multiple phases and minimum lengths. Both require intensive supervision; frequent, random, and observed drug testing; counseling sessions; regular meetings with probation officers; appropriate sanctions and incentives; and other rehabilitative services. Juvenile drug courts also involve family participation and promote self-sufficiency.
